2022 OUTDOOR LIVING COLLECTION

*Live an Inspired Life*

As our global environment continues to evolve daily, we at Peak Season still aim to stay true to one of our founding directives: “create pretty things” that inspire people to use and love their outdoor living spaces. These outdoor living spaces are a comfortable and safe space to spend time with our closest friends and family. Our team is more driven than ever to design and produce multi-use, practical, and one-of-a-kind products for our Inspired Visions line.

We are excited to present our 2022 collection and invite you to explore and imagine what inspires you to live outdoors.

---

VISION: something seen in a dream that by appearance conveys a revelation. A thought, concept, or object formed by the imagination. The special sense by which the qualities of an object, such as color, shape, and size constituting its appearance are perceived
