The 44 Elite NexGen-Hybrid™ is a high-efficiency, clean-burning wood fireplace that is perfect for heating large homes up to 3,000 square feet. It features a huge viewing area with beautiful arched double doors that replicate the look of a traditional masonry fireplace.

Here are some key features you'll love about the 44 Elite NexGen-Hybrid™ fireplace:

- NexGen-Hybrid™ technology produces cleaner, longer burns, higher efficiencies, and more heat into your home, even when the power is out
- Optional Posi-Pressure technology evenly distributes heat throughout your home
- Massive 4.2 cubic foot firebox accommodates logs up to 32 inches long, which allows you to burn wood more efficiently and for longer burn times
- Huge ceramic glass viewing area gives you a great view of the fire from anywhere in the room
